HTML[5], CSS, Javascript, PHP, ActionScript, MySQL	Moderate to High	2	Last Week

## Accomplishments

### Education

Attained my Associates degree in Electronic and Computer Technology.

### Web Design

Reached a level where I feel completely proficient in web development. Feel confident in my ability to build any sort of website to satisfy client request.

### Strong SEO Skills

Established an exceptional understanding over Search Engine Optimization, and produced websites that still come up on first page in Google Searches.

### Problem Solving

Developed my abilities in problem solving. Many of the websites and programs, I have worked on, had required a lot more than simple display of content.

### Hardware

Along with being an experienced web developer, I have exceptional knowledge with the hardware aspect of computers. I have completely disassembled and repaired anything from laptops to modern day smart phones (ie. iPhone/Android).

## Work Experience

---

### Web Developer

July 2010 until Present

#### **Modern Martial Arts**— New York, New York

Established a strong connection with the owner of the company. Responsible for implementing strong, professional, and visually appealing websites that are effective at presenting content, as well as making sure those websites are on all Search Engines. Strong SEO skills. Currently still work part time (1-2 hours/week) to update minor content on his websites.

### Computer Technician-

October 2008 until June 2010

#### **EasyWay Computer Services**— New York, New York

Expanded my knowledge in software and hardware aspects of technology. Attained most of my knowledge in hardware repairs and replacements. Some of the common job tasks I had to perform included:

- All Laptop Repair
- All Smartphone Repair
- Network systems setup and other IT services.
- Website development.

## Education and Training

---
